Salary Process for Staff

How attendance and salary work in the Vasantham staff app

Vasantham Group Of Companies · Effective from _____ · Version: September 2026

In one line: your salary is paid **for every minute you work**, counted from the moment you **punch in** to the moment you **punch out** in the staff app.

1. Your daily attendance

Step	What to do
Punch in	Open the app when you arrive and press **Punch In**. Take a clear selfie. The button opens **15 minutes before your shift starts**.
Permission (going out during work)	Press **Permission**, write the reason and take a selfie before you leave. Press it again **as soon as you return**.
Punch out	Press **Punch Out** when you finish work, **every day**.
Leave	Apply for leave in the app with a reason.

At punch in and punch out the app records the **time**, your **selfie** and your **location**. The office can see these.

2. Rules you must know

1. **Punch in closes when your shift ends.** After your shift end time (for example 9:30 PM), you can't punch in for that day.
2. **Late punch in is recorded.** If you punch in after your shift start time, the app marks you late. You are paid only from your actual punch-in time.
3. **Forgot to punch out?** If you don't punch out before 12:00 midnight, the system punches you out automatically at your **shift end time**. These days are marked **"no punch out"** on the office report and on your receipt.
4. **Nothing after midnight is counted.** Time after 12:00 midnight is not paid.
5. **Permission time is not paid.** The time between starting and ending a permission is deducted. If you forget to end a permission, it keeps running until the end of your day, and all of that time is deducted.
6. **Leave days are not paid.**
7. **Days without attendance are not paid.** They show as absent.

3. How your salary is calculated

The office sets your **monthly salary** and the **working days** for each month (for example 26 days when Sundays are holidays). From these, the system works out your **pay per minute**:

Pay per minute = Monthly salary ÷ (Working days × Minutes in your shift)

Your salary for the month = Minutes you worked × Pay per minute

Example: monthly salary ₹15,000, 26 working days, shift 9:45 AM to 9:30 PM (11 hours 45 minutes = 705 minutes a day).

Minutes expected in the month	26 × 705 = 18,330 minutes
Pay per minute	₹15,000 ÷ 18,330 = ₹0.8183

Example day	Minutes paid	Pay for the day
Punch in 9:40 AM, punch out 9:30 PM	11 h 50 m = 710	₹581.01
Punch in 10:15 AM (late), punch out 9:30 PM	11 h 15 m = 675	₹552.37
Punch in 9:45 AM, punch out 6:00 PM (left early)	8 h 15 m = 495	₹405.07
Punch in 9:45 AM, punch out 9:30 PM, 1 hour permission	11 h 45 m − 1 h = 645	₹527.82
Punch in 10:00 AM, forgot to punch out (auto punch out at 9:30 PM)	11 h 30 m = 690	₹564.65
Leave day or absent	0	₹0.00

Your month's salary is the total of all your days. If you work every working day for your full shift, you earn your full monthly salary. Working fewer minutes pays less, and minutes you work before your shift starts or after it ends are also paid.

4. Working days and salary changes

- The office sets the **working days for each month** (for example, all days except Sundays, minus holidays). It is usually the same for everyone, but the office can set a different number for you.
- Your **monthly salary** is set for 12 months at a time. An increment or change applies from the month the office sets it.
- Salary is calculated from the attendance recorded in the app. Days and times that are not in the app are not paid.

5. Your salary receipt on WhatsApp

1. After the month's salary is ready, the office sends you a **WhatsApp message** on your registered mobile number with your days worked, paid hours and amount.
2. The message has a **Receipt link**. Open it to see the full details: working days, days worked, leave, absent days, pay per minute, and every day's hours and amount.
3. Press **Print / Save as PDF** on the receipt to keep a copy.
4. The link opens only **your** receipt. **Don't share it**, because anyone with the link can see your salary.

6. Do's and don'ts

Do	Don't
• Punch in as soon as you arrive • Punch out every day before you leave • End your permission as soon as you return • Apply for leave in the app • Keep your phone's location turned on • Take a clear selfie showing your face • Check your receipt every month	• Don't ask someone else to punch in or out for you • Don't forget to end a permission, or the whole rest of the day is deducted • Don't share your receipt link or app password • Don't use someone else's phone or account

7. Questions and corrections

- If your receipt looks wrong (a missing day, a wrong time, an unclosed permission), tell the office within _____ days of receiving it.
- If the app didn't work on a day (no internet, phone problem), inform the office **on the same day**.
- Keep your mobile number up to date with the office, so you receive your receipt.

Staff acknowledgement

I have read, or had explained to me, this salary process. I understand that:

- my salary is paid for the minutes I work, from punch in to punch out, as recorded in the staff app;
- time without a punch out is counted only until my shift end, and time after 12:00 midnight is not counted;
- permission time, leave days and absent days are not paid;
- my selfie and location are recorded when I punch in and punch out.
